

Equity Research Associate Intern

What they do:

- Make investment recommendations on stocks across different sub-sectors. These recommendations are solely attributed to the intern and communicated to all of our portfolio managers.
- Conduct analytical research, communicate with corporate management teams, industry experts, and Wall Street analysts.
- Attend company meetings both within and outside of their designated industry.
- Collaborate with an analyst or associate who will act as a mentor.

Application Window: July 10 – August 13

Location: Boston, MA

Spotlight: Yaz Malas

Former Equity Research Associate Intern

School: University of Massachusetts, Amherst
Major: Mathematics, Finance, and Economics
Graduation Year: 2016

“My favorite part of the internship was the unbridled access to world-class investors who are willing and eager to teach you. That's the best part. Fidelity is one of a few buy side firms that hires undergraduates, giving you a level of responsibility that's customarily handed to someone a few years your senior.”
